

How to set a wallet to accept **HTKN**

SETTING UP LOBSTR WALLET TO ACCEPT HTKN

To allow your [Lobstr](#) wallet to accept HTKN, you will first need to create a trustline. After which, you could transfer HTKN into your wallet using your Stellar wallet address

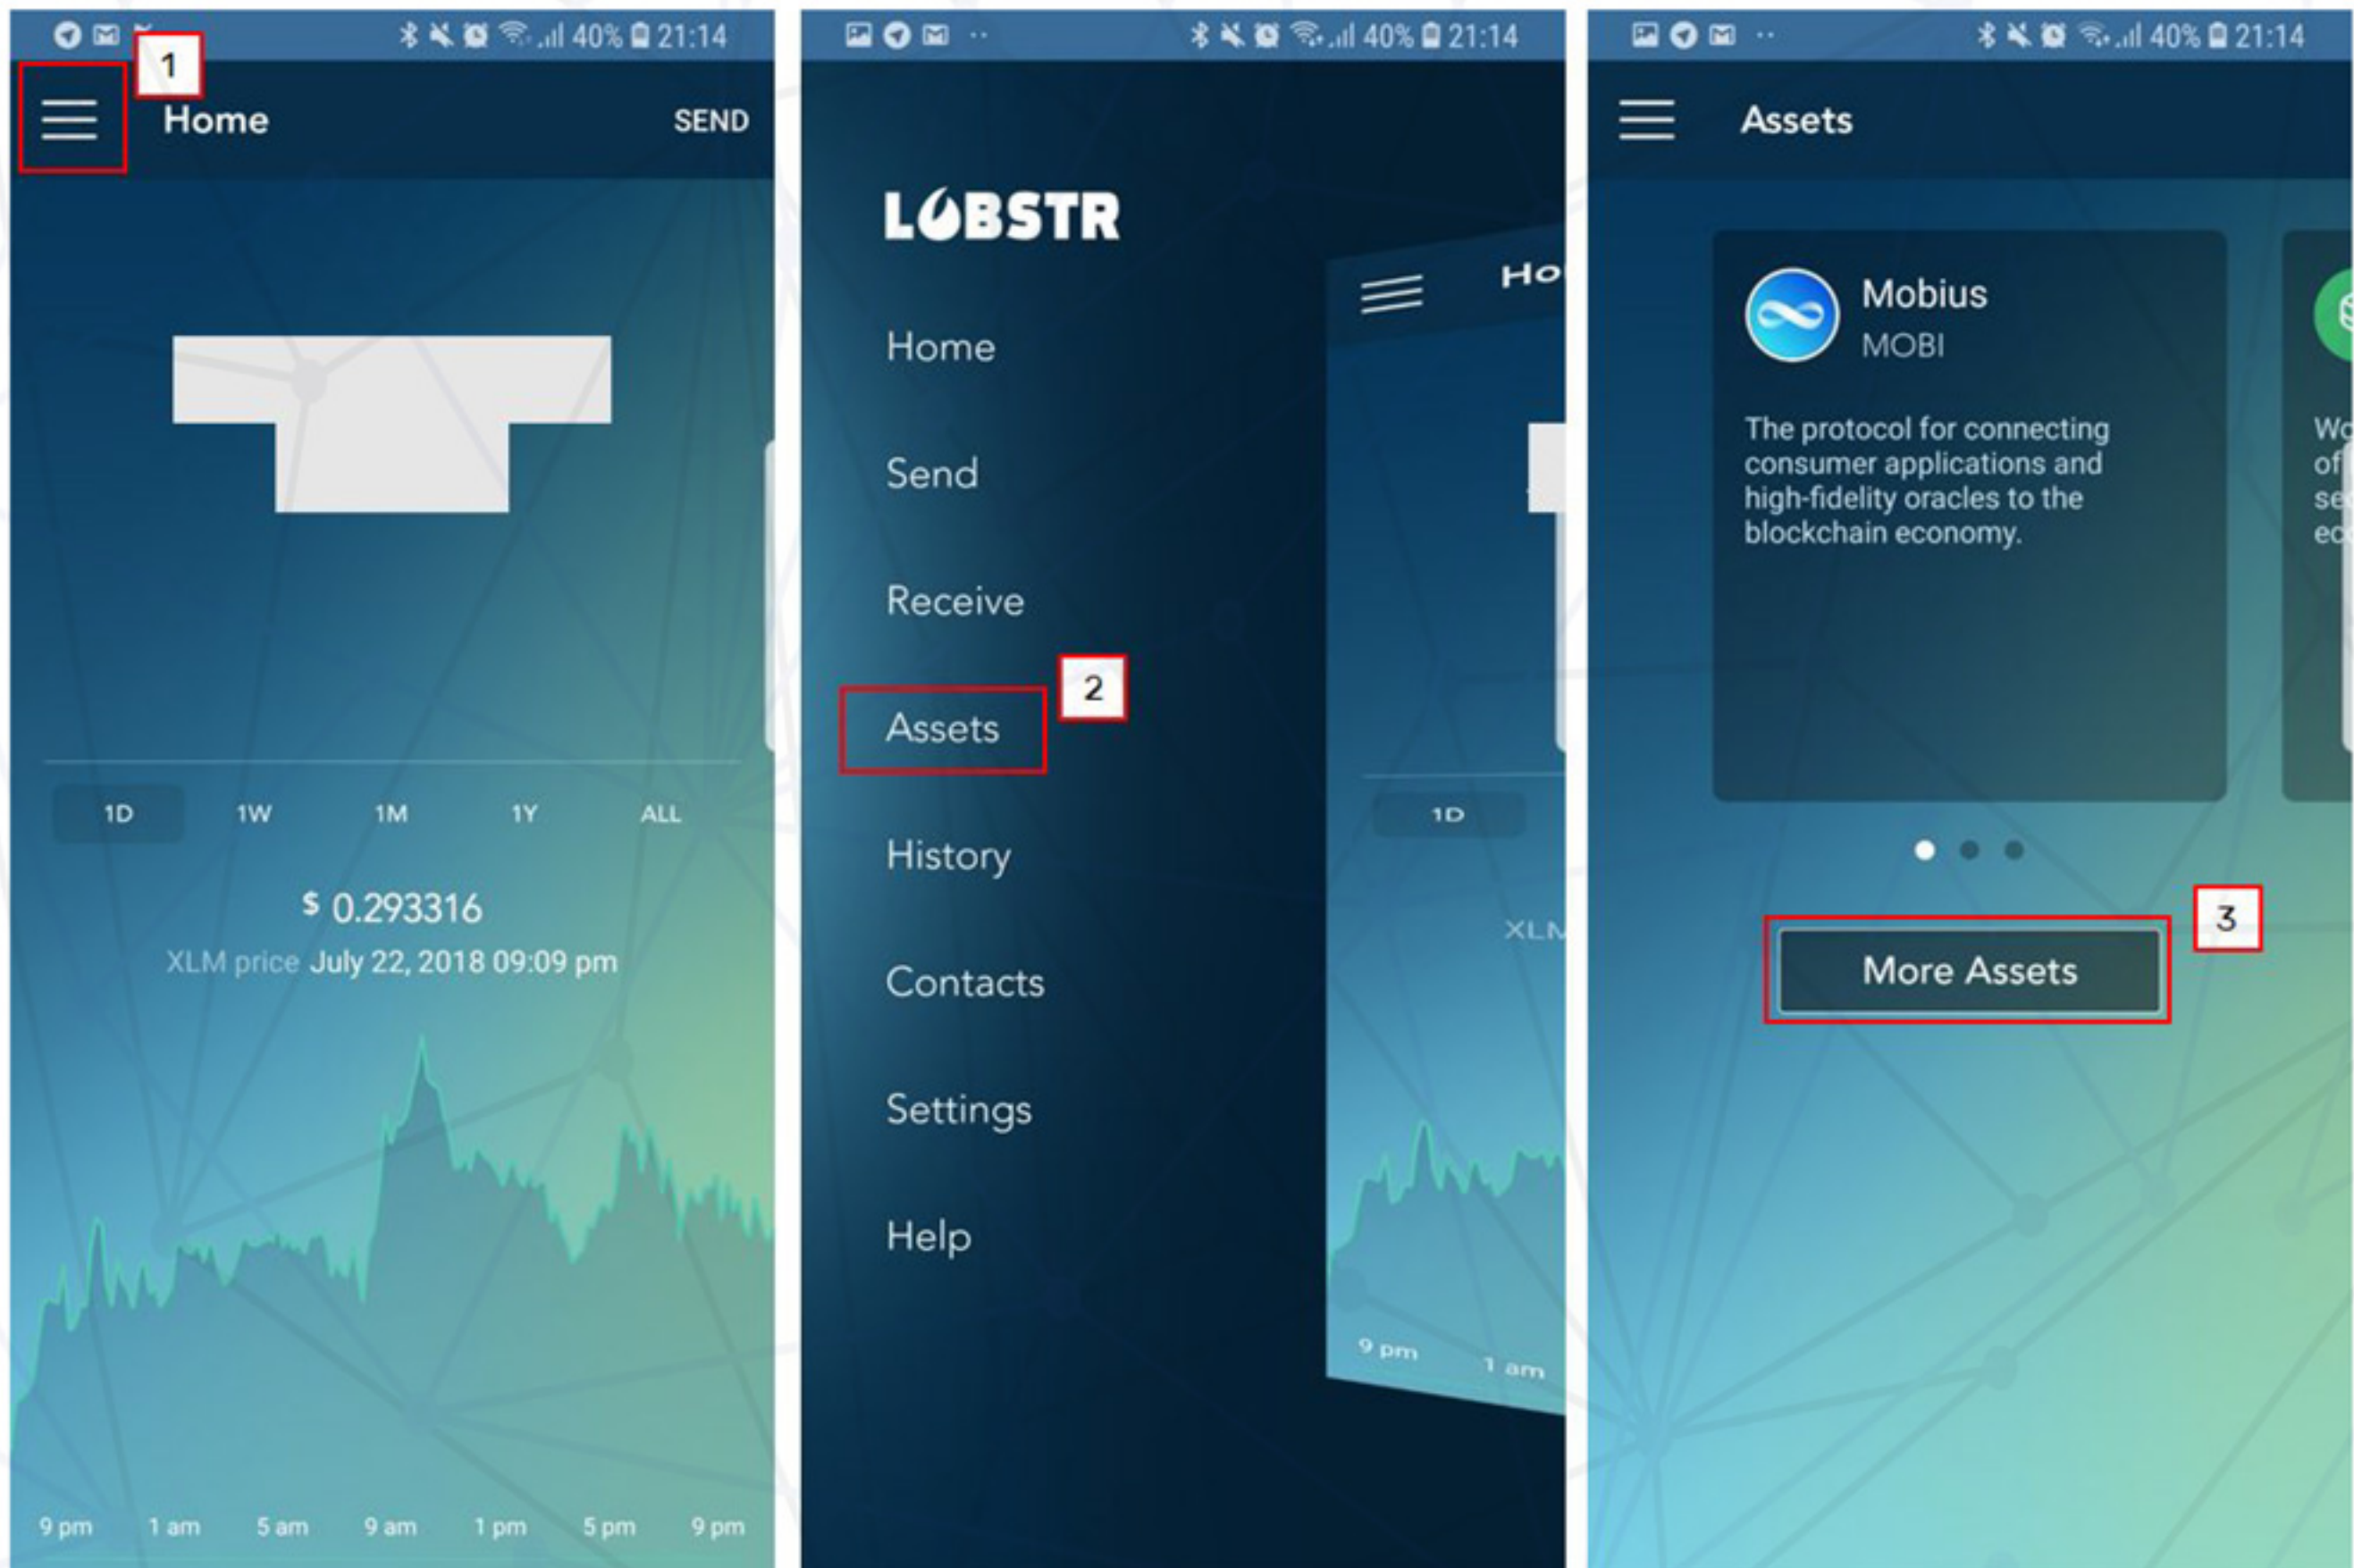

Please note that your wallet requires a base of 0.5 XLM per asset added.

I. Lobstr.co Mobile Application

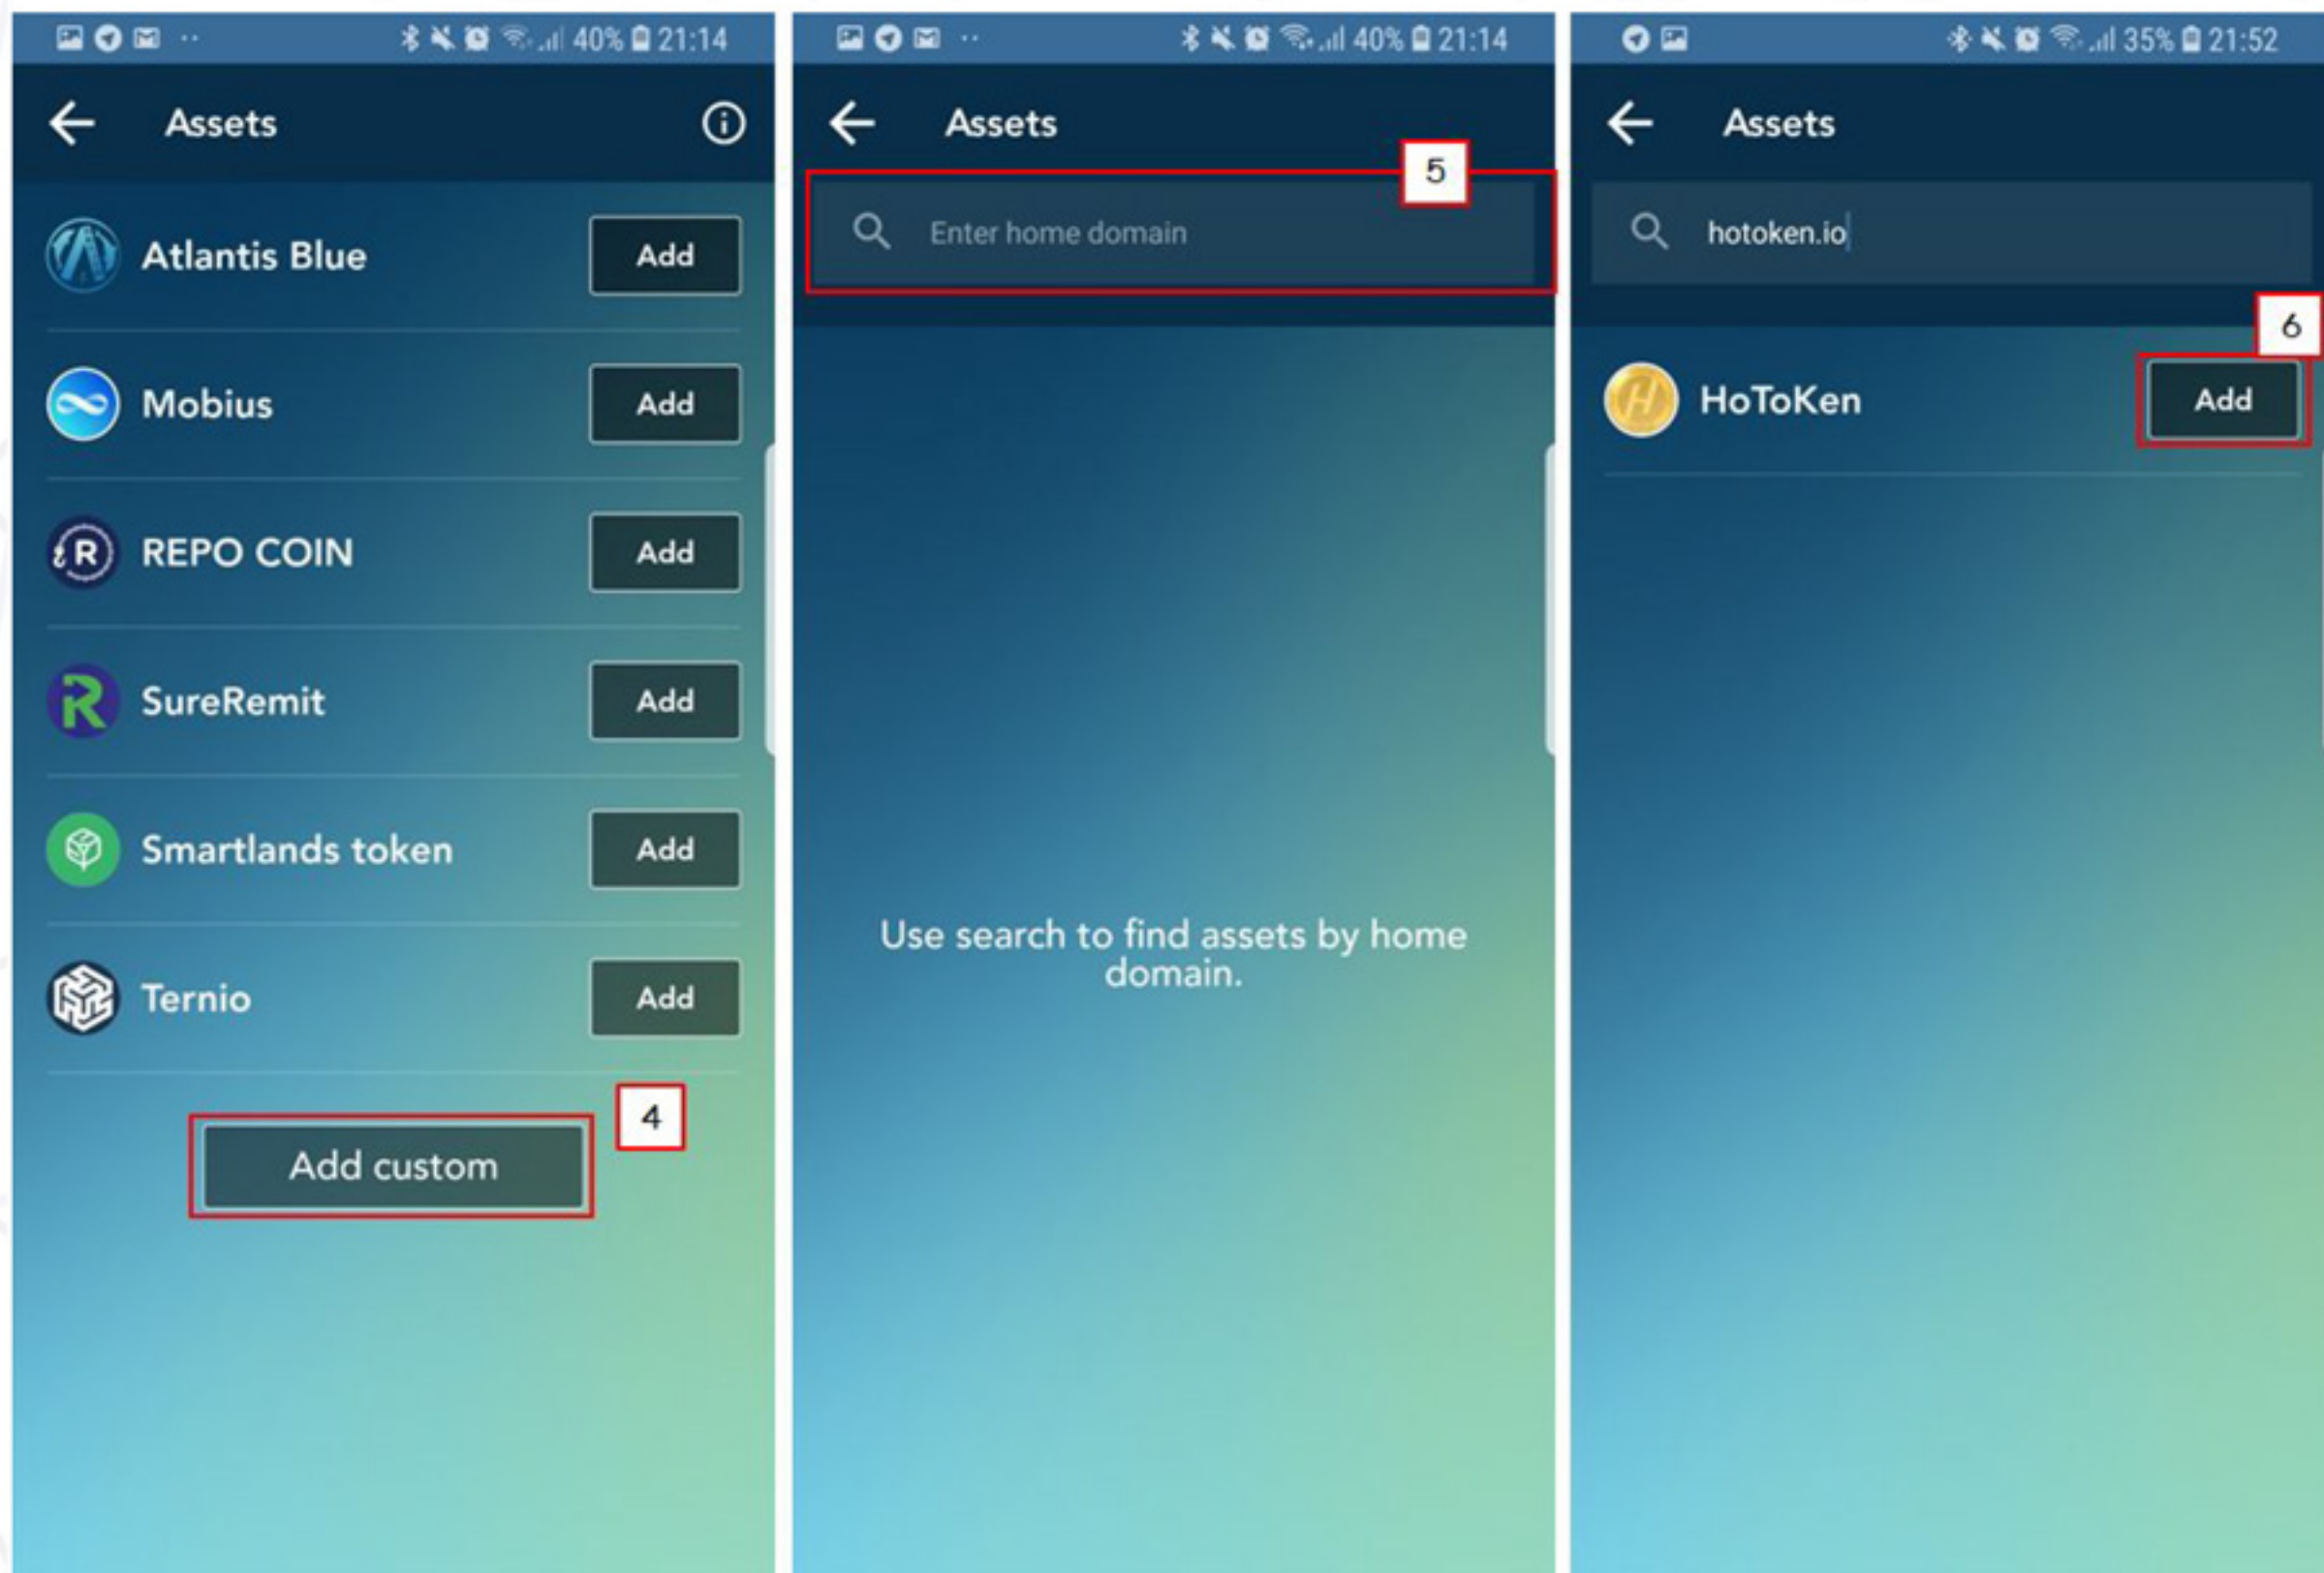

I.a. Creating the Trustline

After logging in, follow the following steps to add HTKN as an asset onto your wallet

1. Click the **Menu** button
2. Click **Assets** on the menu list
3. Click **More Assets** button

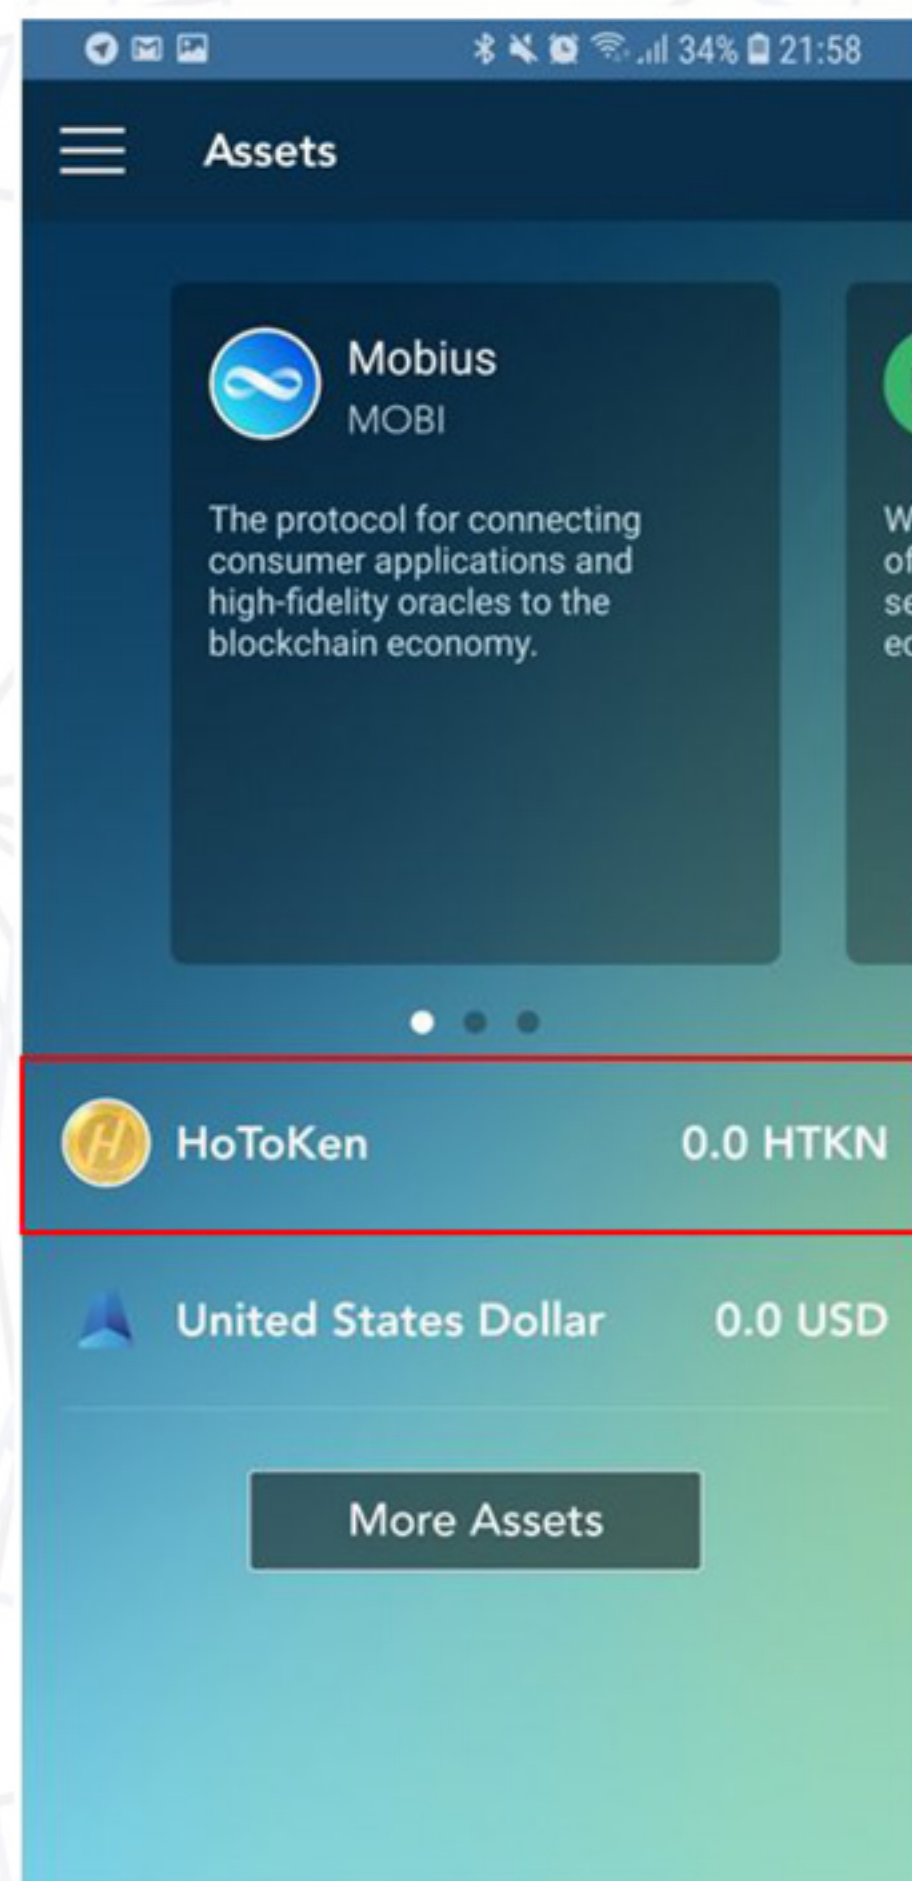

4. Click **Add custom** button
5. Enter "hotoken.io" in the text box "Enter home domain"
6. Click **Add** to add asset

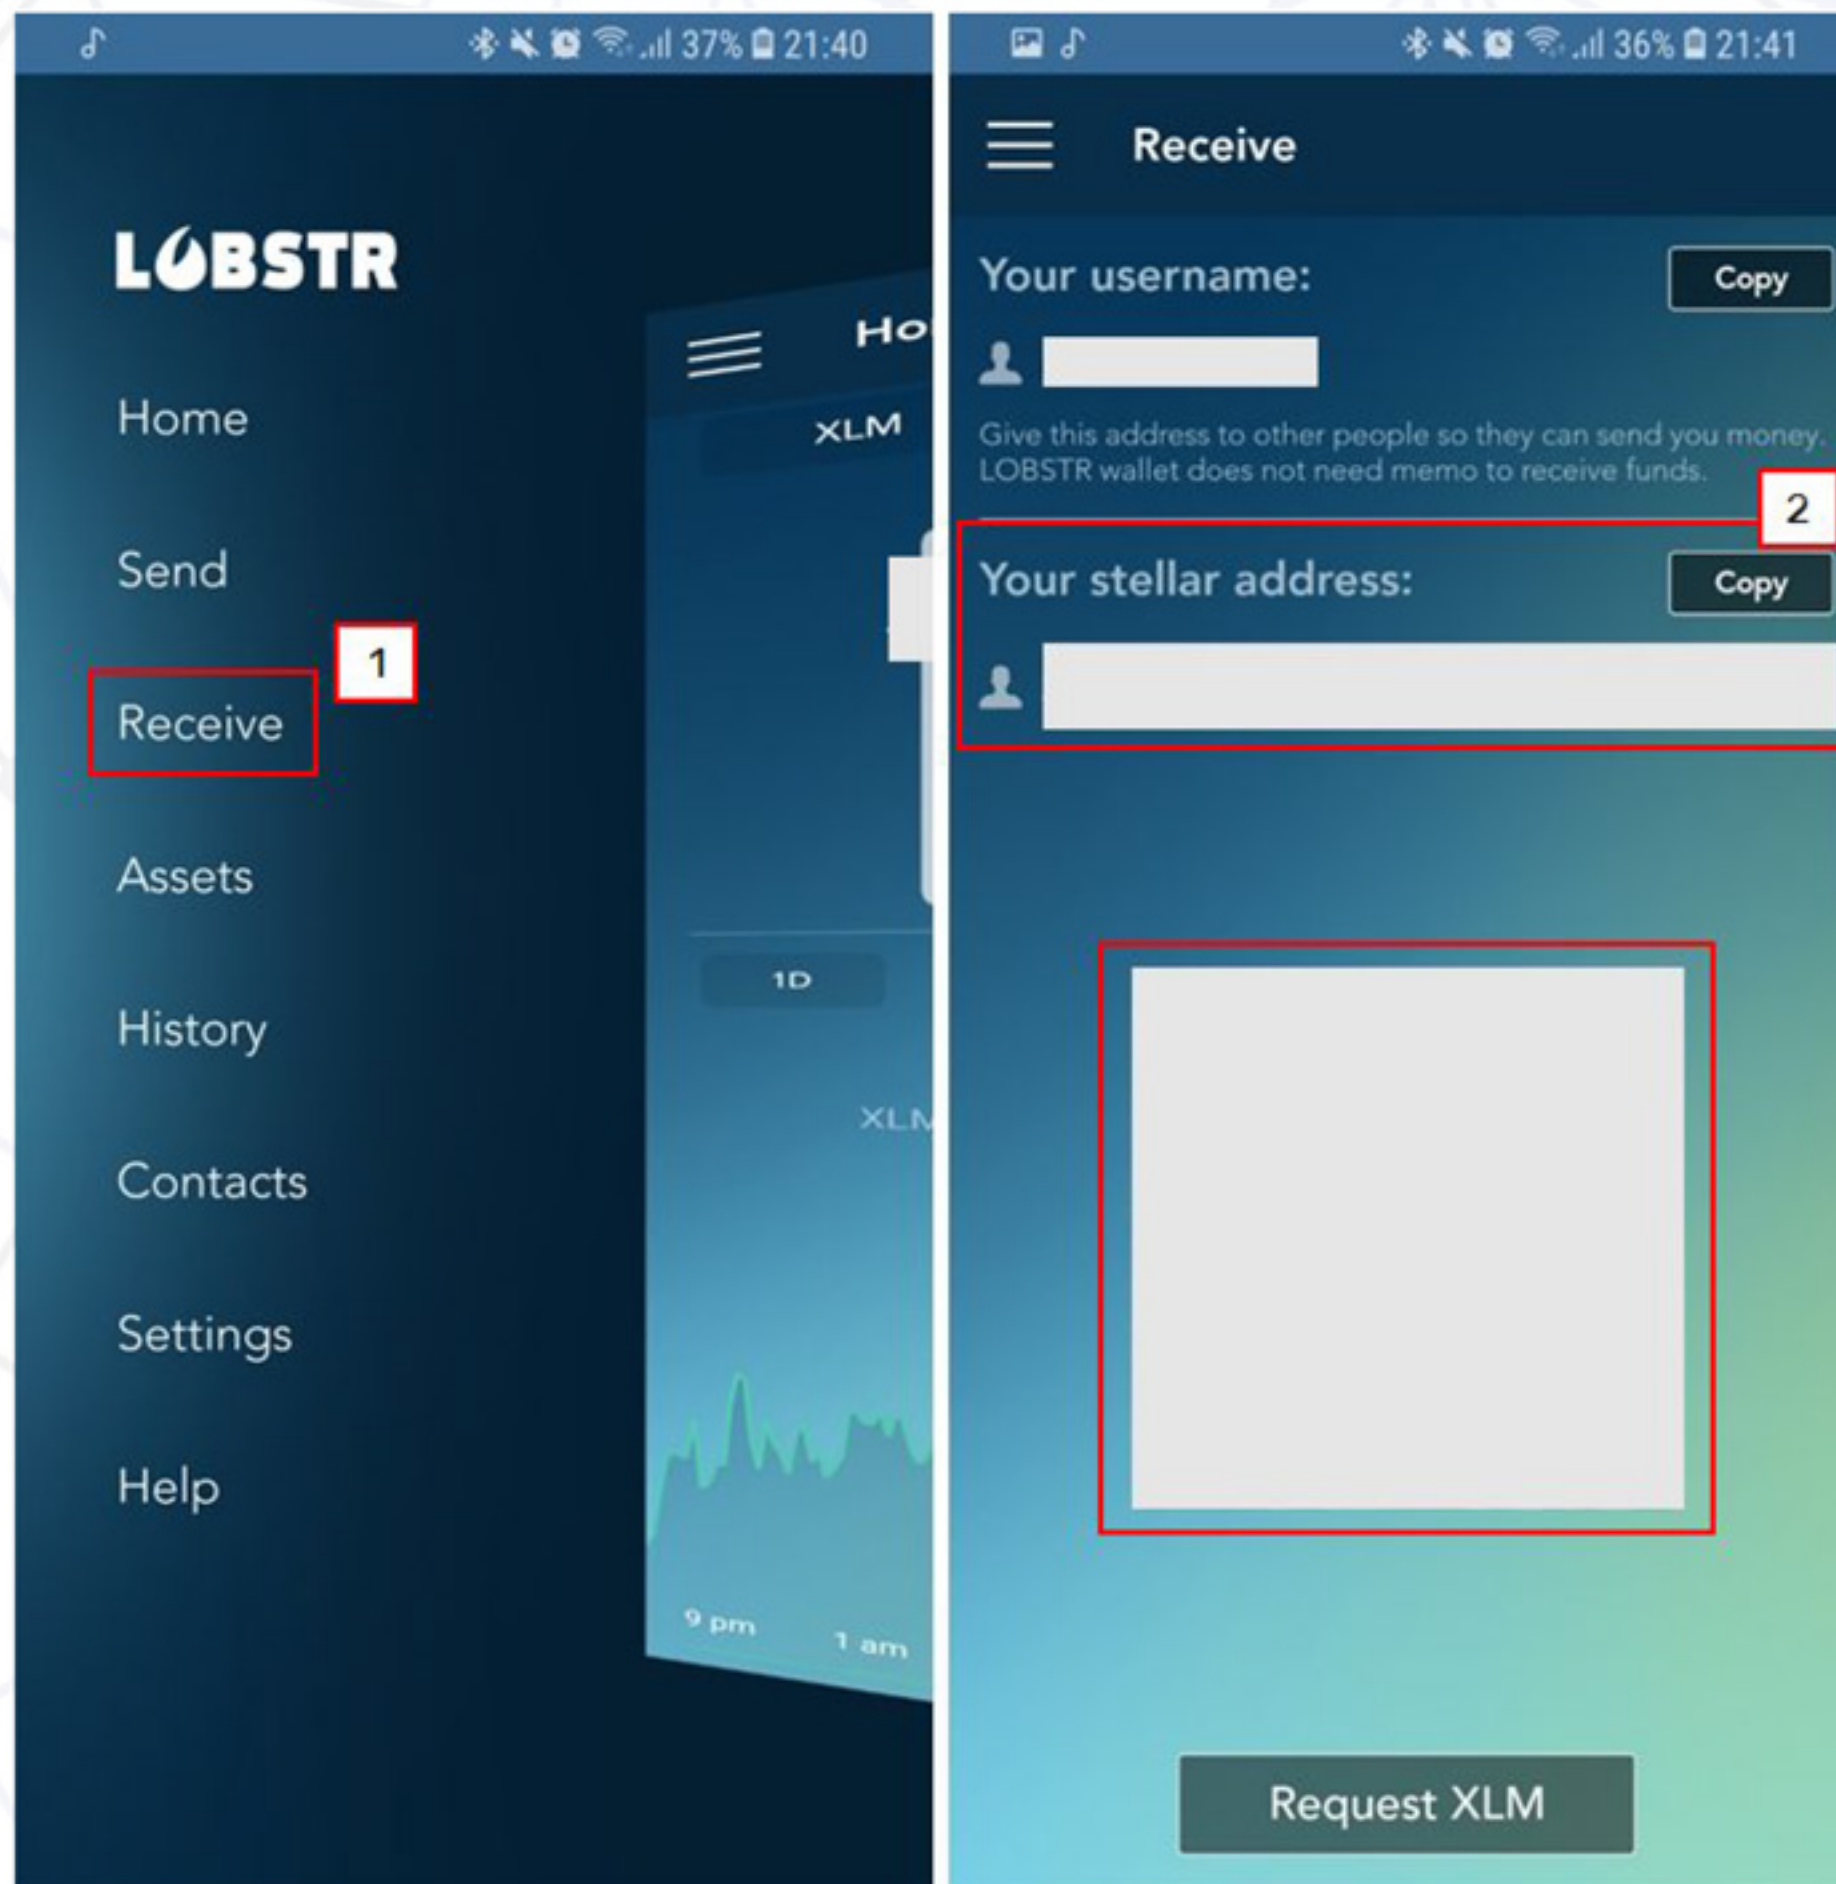

7. Click **Add asset** on the next page

You will be prompted to enter *Password* and *2FA*. After which, HoToKeN should appear as one of your assets, and you can now receive HTKN.

I.b. Finding your Wallet Address

1. Click **Receive** under the menu list
2. Find your Stellar address and QR code on the page

II. Lobstr.co Web Application

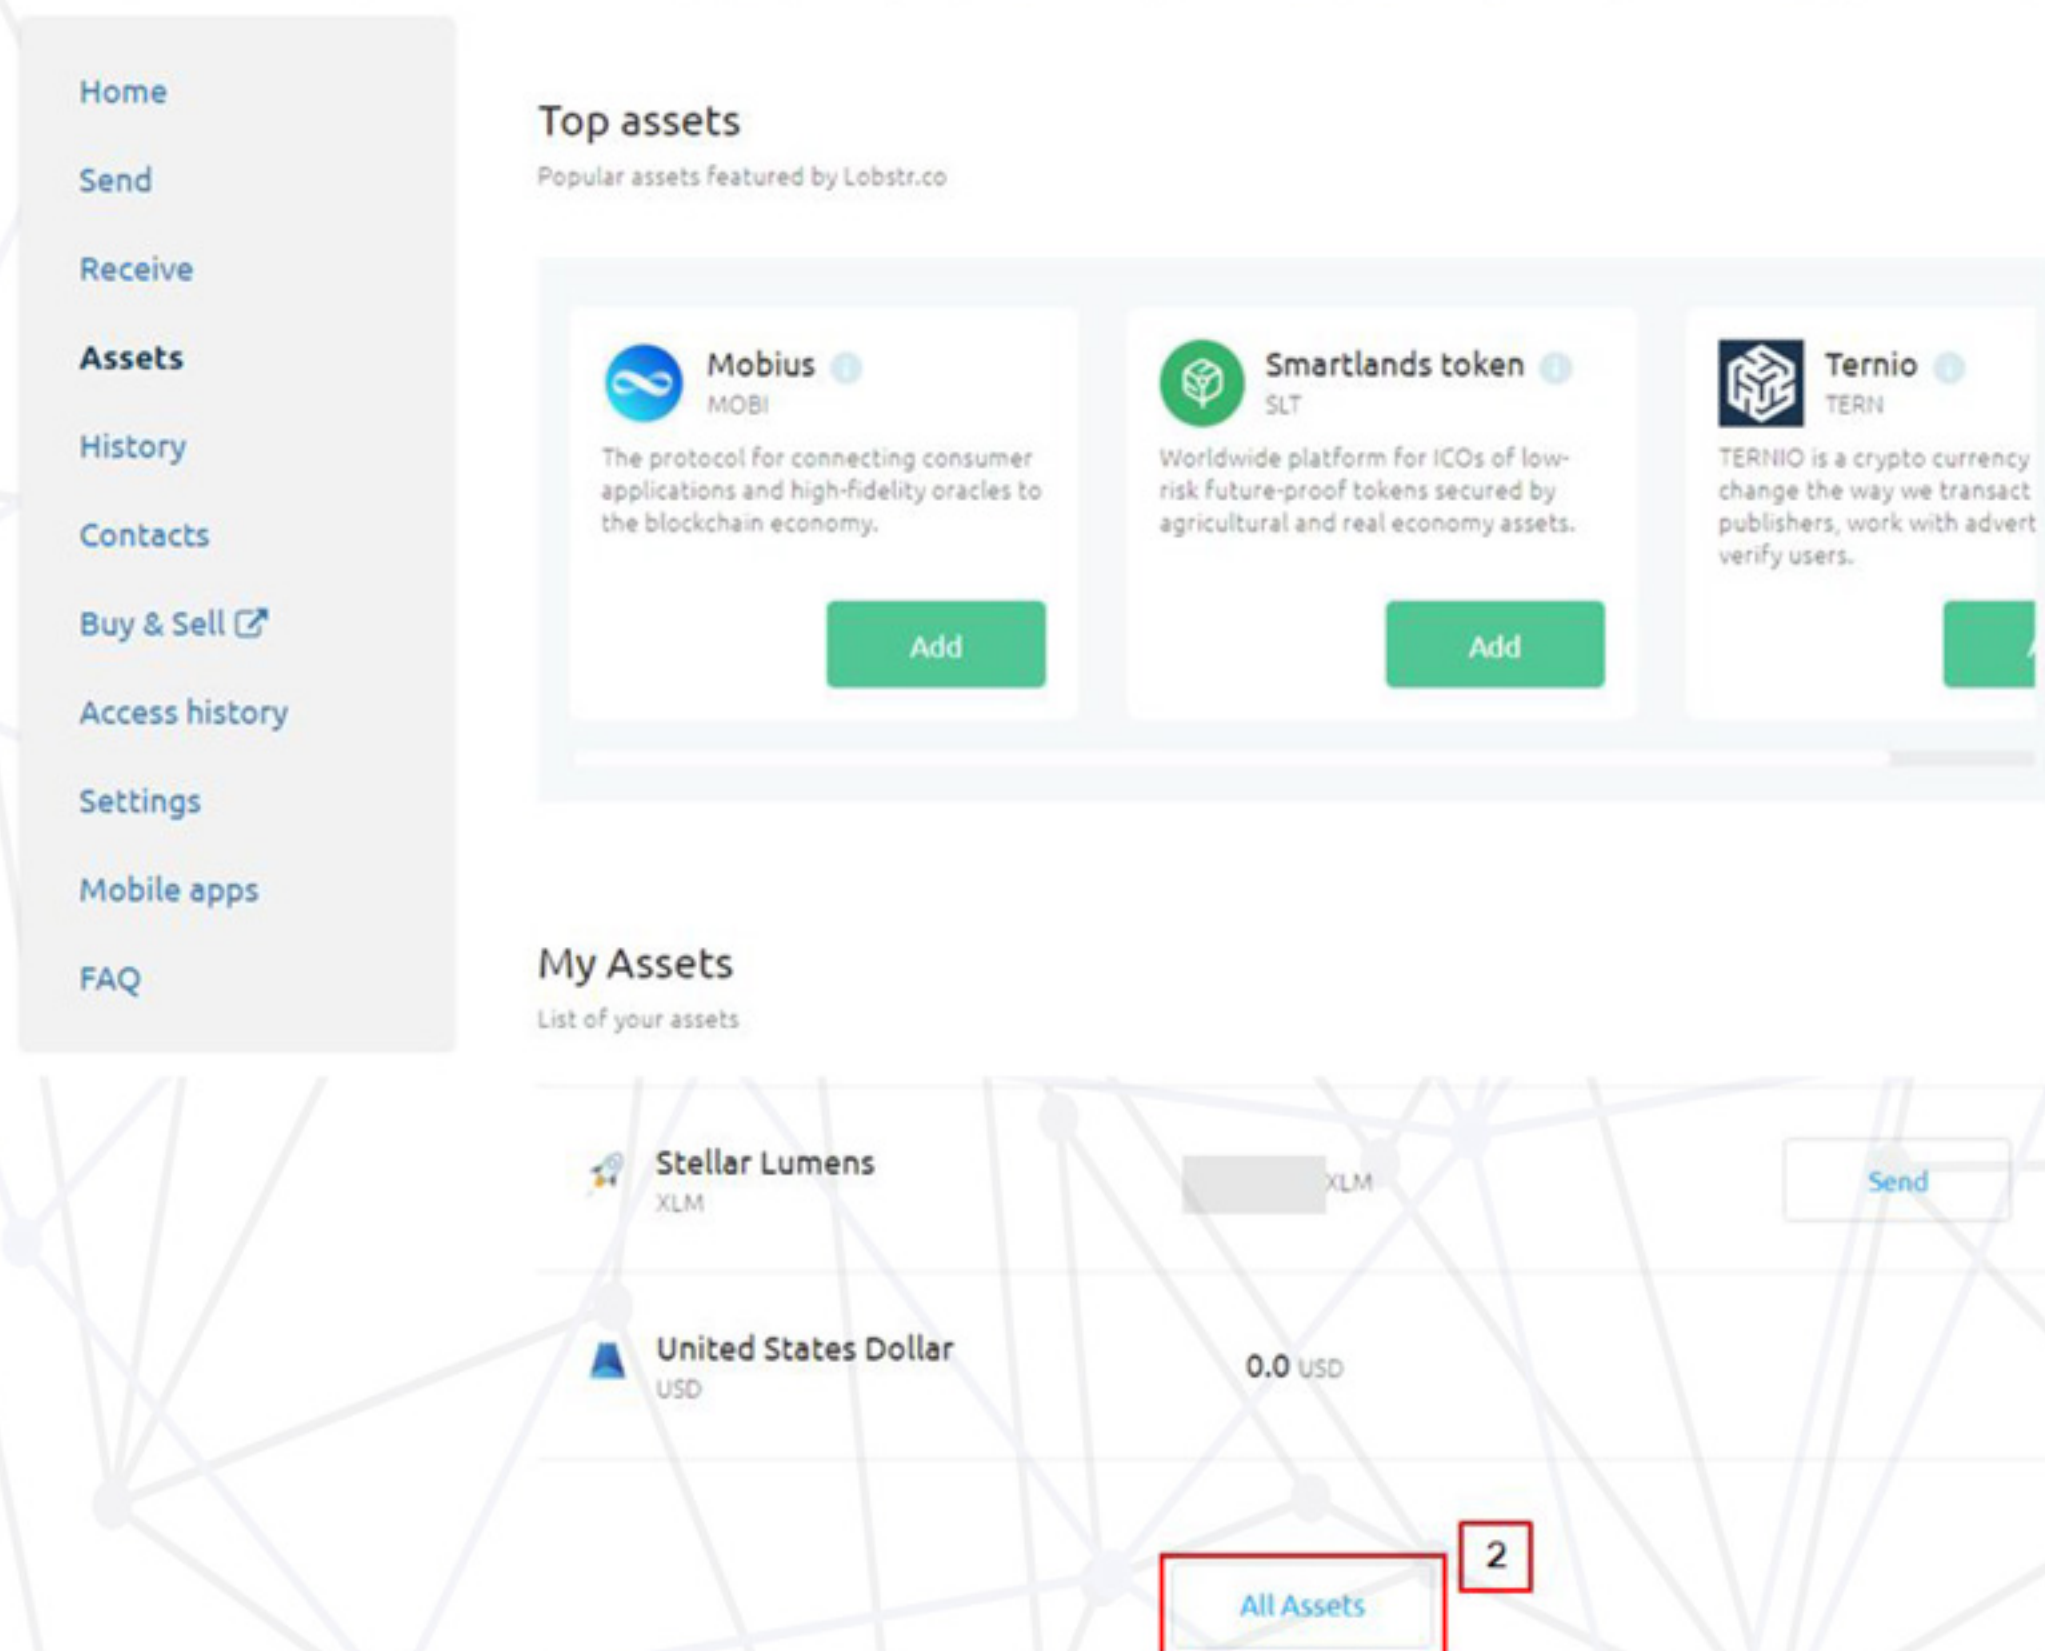

I.a. Creating the Trustline

After logging in, follow the following steps to add HTKN as an asset onto your wallet

1. Click **Add new asset**

2. Click **All Assets**

3. Click **Add Other Asset**
